

# Astrology: An Ancient Science

## A Six-Week Intensive with Astrologer Patricia Mellman

Patricia is proprietress of Mercury Rising Astrological Services in Falmouth and studied with the renowned Isabel Hickey, one of the first to teach Astrology from a spiritual perspective. In her astrological consultations, Patricia gives her clients the information necessary to make life choices that are available to them, pointing out that we manifest our own destiny. Through the tool of astrology, she shows her clients the choices that are current, helping them understand how to work with their innate energy. Patricia has been an astrologer for over 40 years.

An outstanding teacher, Patricia assists her students in understanding Astrology from an easy-to-comprehend perspective: clearing the confusion and assisting them in learning and feeling the energy of planets and the tools that they offer to those who take the time to study and learn this ancient science. In this course, you will learn:

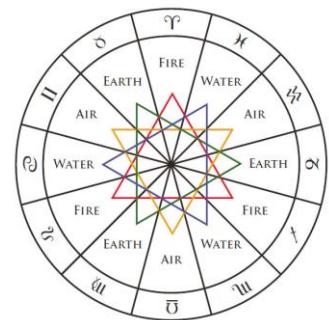

- The signs, houses and planets involved in your birth chart.
- The elements (Earth, Fire, Air and Water).
- How you can use the energy of the planets and signs in your day-to-day life and prepare for future probabilities.

Why not take this opportunity to learn about yourself, your friends, and your loved ones, as we delve into the depths of astrology together.
